Roundtable in the High Desert

GROUP ACTIVITIES (Continued)

Kartchner Cavern: The caverns are a kaleidoscope of color with 100-foot high ceilings dripping with multi-hued stalactites and floors jutting up with matching stalagmites. Kartchner is a wet “live” cave meaning water still percolates from the surface and calcium carbonate features continue to grow in the darkness. The Park includes a Discovery Center, gift shop, regional displays, and educational information about the caverns and the surrounding landscape. During the transfer to the park, you’ll watch a movie which will give you a sneak preview of what you are about to see and experience. The Caverns maintain a 72° temperature year round.

The Rotunda / Throne Room Tour – is a half-mile, 1 ½ hour walking tour, led by a professional guide, where you will discover the role water has played in the creation of the cavern. You will see some of the tiniest, most delicate formations found in the cave, as well as the largest column in Arizona. This tour includes an up-close look at the variety of formations and colors that makes this cave one of the top ten in the world.

Sabino Canyon: Sabino Canyon is not only a nature photographer’s dream it is also steeped in history. Twelve thousand years ago, Columbian Mammoth roamed here. About 1,200 A.D., irrigation dams were placed in the creek by Hohokam Indians. Our tour guides will accompany you to Sabino Canyon where you will board an open-air, outdoor motorized tram for a 45 minute narrated tour that gets you up close and personal to this desert oasis. Along the 3.8 mile trail the tram makes nine stops for visitors to take in the panoramic views – cameras are a must. Following your tram adventure you will be treated to a botanical walk where you’ll learn about desert flora and fauna.

Hiking Tour in the Fingerrock Trail Head: The Tucson hiking tour is designed to bring you an enjoyable, informative, and invigorating wilderness experience. Through movement breathing, hiking expands your physical, emotional and spiritual selves. The guides will tell you all about the plants and animals of the unique region. They will also give you a sense of the rich heritage of the Native Americans and Pioneers who made the Sonoran Desert their home. Hikes conducted on Coronado National Forest property. The guides take great pride and care in sharing the canyons and mountains surrounding their desert home. We invite you to take some time to enjoy the unique desert environment.
